

## Information on arrival and packing list

### Bring along:

- **Slippers** – there are no outdoor boots allowed in the house.
- **Earplugs** – the cottage is very clairaudent, as we noticed.
- **Flip Flops** – for the sauna.

### We have on site:

- **Beds** including duvets, pillows and blankets.
- **Towels** & bathrobes.
- Limited **internet, electricity** and **mobile phone** (4G) reception (sockets according to European standard).
- Local **SIM** can be rented (10,-€ per week +50,-€ deposit)
- We have wine & beer in the guest house. Please don't bring it!

### Freeride & Safety equipment:

- **freeride skis (+100) or board**; ideally with skins (split board); Crampons are not required. We are in free ski space - there are rocks, maybe don't bring your newest equipment.
- **Avalanche transceiver, probe, shovel** obligatory.
- We strongly recommend an **airbag** and a **helmet**.
- In addition, a bivouac sack, rescue blanket and a first aid kit are advisable.
- If needed a thermos flask.

### Luggage (Wizzair):

- WizzAir does officially take **cartridges**. When it is a problem, leave the cartridge behind and lend it with us (20,-€ per week; limited number available: Mammut, Ortovox and ABS)
- The **sports baggage** is cheap; officially it should not contain clothing. Even so, there were no problems last year. For ski boots a separate bag is officially allowed, but not always accepted.
- **Check-in** necessarily via the internet. Everything costs much more at the airport.

### On arrival:

- We pick you up at the airport Kutaisi. Please provide us with a **mobile phone** number before departure so that we can contact you in the event of a flight delay or detour.
- Please keep **warm clothes** and **snow-resistant shoes** at hand as we will change to snowcat on arrival. At night it can get a bit colder in the cabin.

### Money:

- Drinks, additional transfers, souvenirs and rental equipment (skis, airbags) can be paid in Euro, USD, Lari or CHF.
- Please bring enough cash with you. **Payment with credit cards is not possible in the base!**
