

## Snowcat supported Freetouring

In December and March we offer ski-touring and splitboarding weeks with the support of our snowcats in our mountain hut in **Adjara** and on request also in **Bakhmaro** or **project X**. The snow cats with heated cabins are available to the group every day to reach more remote areas, to organize a pick-up in the valley or to enjoy a few extra runs without a hike.

It is possible to do on some days just catskiing and then go for touring the next day or use the cat each day for half of the day. We are fully flexible and adapt to the weather and the group. Additional catski days can also be booked (150,-€ per person and day).

## Itinerary

- **Saturday** - Pick up at the airport in Kutaisi or Batumi & transfer to the mountain hut [Situationally, it could be necessary to do an overnight stay near the airport on arrival and/or departure day.]
- **Sunday**: Brunch, Safety-Meeting, snowcat supported ski-touring.
- **Monday-Friday**: snowcat supported ski-touring, catskiing or freetouring in the mountains around the hut.
- **Saturday**: Departure - transfer back to the airport.

## Services included

- Pick up at Kutaisi or Batumi airport and transfer to the mountain hut and back.
- 7 nights in a simple mountain lodge in Adjara, project X or Bakhmaro.
- Breakfast, packed lunch and typical Georgian dinner.
- 5-6 days snowcat-supported freetouring including guide (depending on weather conditions downdays are possible)  
The snowcats are available to the group for an average of 3 hours per day.
- Experienced, certified local guide.
- English speaking contact persons with local knowledge.
