

It's August and high season in Bakhmaro. The resort is full, our hotel - the PIONEERS - is full and so is our café. It is unusually warm and dry this year. At the same time – as always – the preparations for the winter are in full swing.

Our locations next winter

With **The PIONEERS** we continue to have the best accommodation in Bakhmaro. It is the only operational hotel in the resort.

We have installed solar convectors on the roof of the pavilion for environmentally friendly water heating. In addition, we have invested in a modern waste water system - unique in Bakhmaro - which now cleans our waste water. A major improvement for our freeriders is a kind of porch in front of the ski room and side entrance, which simplifies access to the ski room.

We are moving with the **Bakhmaro Base**. After the considerable problems in the rented house last winter, we decided to look for a new guest house. The new building will be better than last winter's house and so we will have the two best houses in Bakhmaro on offer again next winter. Of course, all rooms have a private bathroom - this is now standard in Bakhmaro, as is central heating and a sauna. The bathrooms will meet international standards.

Our **Wolfsbed Hut** in Adjara is again our backcountry alternative in mountain hut style - simple but comfortable. Again, we expect every freerider to bring skins. This hut lives from the atmosphere, the hut life and the snow-reliable location of the hut.

In our new **project X** we will enlarge the lounge. If everything works, a small sauna hut will be added, too. But project X remains adventurous - especially the access road and we hope to be alone in this new area one more time.

Flight connections & arrival

© Dirk Wagener

Wizzair is stationing a fourth aircraft in Kutaisi, increasing frequencies to established destinations such as Memmingen and Paris, but also adding new destinations such as Copenhagen, Hamburg and Frankfurt.

Saturday as the day of arrival is and remains important to us to be able to offer a high-quality tour. If airlines do not offer a flight on Saturday, we recommend a night in Kutaisi or Batumi and we pick up at the hotel. Both cities are great for some sightseeing.

To shorten the travel time and thus make the journey more comfortable, we will make hotel recommendations for Kutaisi and Batumi.

Remaining Availability

The PIONEERS (hotel):

- 20/01-27/01/2024, 3'100,-€ p.P.
- 09/03-16/03/2024, 2'800,-€ p.P.

We also have availability for our **New Year's Week** with flexible arrival days. We usually spend most of our time at The PIONEERS in Bakhmaro but also visit the Wolf's Bed Hut in Adjara for a night or two. Every year we have a nice group with many repeaters. The week is always a highlight of the season.

First come – first served. As always with the remaining places in late summer.
