

A very strenuous winter lies behind us. It turned out to be a winter of unpredictable weather with weeks of sunshine, two weeks of practically continuous snowstorms and finally warm temperatures.

With project X we have successfully opened up a new location and the new offer of rental skis from 4FRNT was also very well received. With a large pool of such high-quality skis, we have significantly expanded our range. In addition, we now also have 3 splitboards for hire.

Bookings & Outlook 2023/24

The beginning of April is the time to book the high season. Repeaters have expressed their wishes by the end of March and the remaining places are now on sale. Despite the high demand, we do not want to increase capacity for next year, but rather improve our existing program.

In **The PIONEERS** we would like to add solar convectors to reduce the consumption of firewood. Before the summer we will work on the outdoor facilities and then start operating the hotel and café again in June. If we find a reliable waiter, we will then also open the café in winter.

The PIONEERS is and remains by far the most comfortable accommodation in Bakhmaro. We practically offer a hotel standard there. Due to the continuous operation, we can guarantee a good service and a really good kitchen.

Many weeks are already fully booked by repeaters. We will release remaining places for individual bookings in the next few days.

With the **Bakhmaro Base** we operate a second house in Bakhmaro in winter at a lower price. Since the house is rented, we have to remain flexible. Nobody knows if we can get the same house again next year. Unfortunately, commitments from landlords are not very valuable in Bakhmaro. But there were also a number of problems with the house last season. For next winter we will again rent the best house that is offered in Bakhmaro.

There is still a lot of availability in the base. Only a few weeks in the peak season are fully booked.

We now officially call our hut in Adjara the **Wolf's Bed Hut**.

The positioning as a backcountry alternative has proven itself and will remain so. Nothing works in our own groups up there without skins. Nobody else gets lost in this high valley, and it is precisely this remote location and the special atmosphere of the hut, which is limited to one group of freeriders, that makes the hut particularly popular with fixed groups of friends. In March we would like to conduct a Cat & Tour group there again.

Individual weeks can still be booked, in particular the Cat & Tour week.

Our biggest project last winter was the new **project X**. The general feedback was that we brought back the old Bakhmaro spirit. The freeriders were enthusiastic about the terrain and the snow.

But during the snowstorm it got to be too much. Especially regarding the access road, we still have to think about easier and safer.

For next season we are planning to expand the living area while keeping the simple style. There should be more space to eat and drink. There may also be a sauna, but I do not promise yet.

All the groups that were at **project X** during the inaugural season want to come back. Several weeks are already fully booked. Especially at the beginning of January and at the end of February and in March there is still availability.

We look forward to every booking. Get in touch if you are interested for next season...
